Fluor Selected for Six-Year Position on the Air Force Contract Augmentation Program IV

Release Date: Wednesday, July 1, 2015 5:39 pm EDT

Terms: Corporate Fluor North America Company Government Business Groups Regions

Dateline City: IRVING, Texas

IRVING, Texas--(BUSINESS WIRE)--Fluor Corporation (NYSE: FLR) announced today that the Air Force Installation Contracting Agency awarded the company and its joint venture partner, AMEC Foster Wheeler, a position on the Air Force Contract Augmentation Program IV (AFCAP IV) for six years beginning October 1, 2015.

As one of eight companies selected for a position on the AFCAP IV indefinite delivery/indefinite quantity contract, Fluor-AMEC II, LLC, is now eligible to compete for specific task orders with a combined value not to exceed $5 billion during the contract period of performance. AFCAP IV task orders are intended to provide base life support services, engineering and logistics support worldwide to the Air Force and other Department of Defense and U.S. federal agencies.

“We are honored to be selected for AFCAP IV and welcome the opportunity to continue to support the Air Force in its demanding global mission,” said Bruce Stanski, president of Fluor's Government Group. “Fluor excels at delivering timely and cost-effective, integrated solutions in some of the most remote and difficult locations in the world. It is what our people do best.”

Established by the U.S. Air Force to fulfill the Department of Defense's global mission during contingency events, AFCAP provides the Air Force and other government agencies with additional capabilities to rapidly support the logistic requirements of its deployed forces through the use of civilian contractors.

Fluor has served the U.S. Government in a variety of areas including mission support in Iraq and Afghanistan, military construction around the world, hurricane relief in the Gulf Coast, earthquake relief in the western United States and nuclear decommissioning at government-owned sites.

About Fluor Corporation

Fluor Corporation (NYSE: FLR) is a global engineering and construction firm that designs and builds some of the world's most complex projects. The company creates and delivers innovative and integrated solutions for its clients in engineering, procurement, fabrication, construction, maintenance and project management on a global basis.
